Professional Summary

Dedicated Information Technology student with a strong passion for software development and emerging technologies. Skilled in creating functional applications from conceptual ideas and adept at solving complex coding challenges. Experienced in team projects, demonstrating excellent communication and collaboration abilities. Committed to continuous learning and eager to contribute to innovative projects in the tech industry.

Education

Bachelor of Industrial Information Technology

LAB University of Applied Sciences, Lappeenranta, Finland

Expected Graduation: 2025

Diploma in Civil Engineering

Crimson Technical College, Nepal

2015 - 2018

Work Experience

Summer Intern

LAB University of Applied Sciences, Lappeenranta, Finland

May 2024 - August 2024

- Developed a comprehensive Markdown documentation tool aimed at streamlining content creation workflows, ultimately empowering users to create and manage documentation more effectively.
- Built a fully interactive web application using React.js to enhance user engagement and ensure a seamless experience during document editing and formatting.
- Collaborated with cross-functional teams to gather and integrate user feedback, leading to continuous improvements in the tool's functionality and interface, thereby increasing user satisfaction and productivity

LUMA Assistant

LUT University, Lappeenranta, Finland

February 2023 - January 2024

- Designed and delivered engaging workshops on future technologies for K-12 students
 - Facilitated hands-on activities to enhance critical thinking and problem-solving skills
 - Developed educational materials aligned with curriculum standards
 - Collaborated with faculty to iterate and improve workshop content based on feedback
-

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python, C, C#

- **Frontend Technologies:** React.js, HTML5, CSS
 - **Backend Development:** Node.js, Express.js, RESTful APIs
 - **Database Management:** MySQL, MongoDB, PostgreSQL
 - **DevOps:** Git, AWS (Amazon Web Services)
 - **Other:** Object-Oriented Programming (OOP)
-

Languages

- English: Fluent
 - Nepali: Native
 - Finnish: Currently learning
-

Projects

Smart Car Parking System Digital Twin

- Designed the animation and 3D model of the Parking Lifting and Game control for the Car and the random Spawning
- Implemented C# to control the parking lift both automatically and manually

TODO's List

- Developed a user-friendly Todo app to streamline task management
 - Implemented task addition, editing, prioritization, and deletion features
 - Optimized UI/UX and integrated Node.js for backend functionality
 - Dockerized the app for CI/CD and easy deployment
 - Conducted automated testing using npm test to ensure reliability
-

Certifications

- Supervised Machine Learning: Regression and Classification | DeepLearning.AI - September 2024
- Introduction to Generative AI | Google Cloud Training Online - September 2024
- Cybersecurity for Everyone | University of Maryland - October 2023
